

AI HiTek - Remote IT Hiring Platform

Problem

Hiring remote IT specialists is time-consuming and often inefficient. Companies struggle to find reliable talent, and developers face long hiring cycles with poor-fit opportunities.

Solution

AI HiTek is a smart hiring platform that uses AI to match top-tier IT professionals with companies in the UK, USA, Canada, Europe, and Latin America. We automate sourcing, vetting, and matching - saving time and increasing success rates.

Business Model

- Commission per successful hire
- Monthly subscription for premium hiring tools
- Optional technical vetting services

Market

- United Kingdom
- United States
- Canada
- Europe
- Latin America

Current Status

- MVP in development
- GitHub live
- £250,000 seed investment secured
